

Rosso di Montalcino

Pure, gently layered, ethereal tannins...Exuberant now.

94 Points Decanter

Grape Varietal: 100% Sangiovese - various clones.

Vineyard location: Santa Restituta.

Exposure and altitude: West, south-west; 320 - 420 metres.

Soil composition: Marl - Galestro, limestone and calcareous sandstone. Marine deposits.

Training system: Spurred cordon, Guyot.

Planting density: 6,200 vines/hectare.

Vinification process: All work in the vineyards and cellar is done meticulously by hand. Only perfectly mature, carefully selected grapes are harvested into 20 kilo cassettes.

Fermented with indigenous yeasts in temperature-controlled vats, the must is pumped over and manually punched down. The wine matures for up to 9 months in 225 and 4,000 liter French oak, and ages in bottles for a minimum of 6 months.
